Summary

I am a recent computer science graduate with experience in front-end web development, specifically with React JS and JavaScript. I am proficient in integrating with back-end systems using APIs and knowledgeable in popular node packages such as Bootstrap, Axios, Formik, and Material UI. Additionally, I have experience with back-end technologies such as Nest.js, Node.js, Express, and Fastify, and am familiar with databases like MongoDB and MySQL. I am also familiar with containerization technology using Docker. With the ability to work independently and in a team environment, I have a proven track record of delivering high-quality and user-friendly applications. As a quick learner with strong communication skills and a passion for technology, I am eager to contribute my skills and continue to grow in the field.

Objective

I am eager to work with modern technologies like Next.js, React Native, Node.js, and AWS cloud services, as I believe they offer exciting opportunities to create innovative and impactful software solutions. Although I may not have extensive experience with these tools, I am highly motivated to learn and develop my skills in these areas.

Education

Uttaranchal University Dehradun

B.tech in CSE • Dehradun, Uttarakhand

06/2022

- **Grade Point Average(GPA) - 8.07**
-

Work Experience

RenovusTechnologies | Prospectss.com

JavaScript Developer • Remote, Mumbai

09/2022 - 12/2022

I have a strong background as a JavaScript Developer, having worked at Renovus Enterprise from September 2022 to December 2022. During my time there, I was responsible for the full functioning and UI authentication of a chrome extension, showcasing my expertise in JavaScript. I am a quick learner and have a passion for coding, which allows me to excel in my role as a developer. I am committed to delivering high-quality, functional code and am confident in my ability to contribute to any development team.

Crosscope

ReactJs Front-end Developer Internship • Remote, Mountain View

01/2022 - 04/2022

As a React JS Front End Developer Intern, I gained valuable experience working at Crosscope, a medical healthcare company, from January 2022 to April 2022. I was responsible for the end-to-end functionality of the dashboard, login page, and account section, and integrating it with the backend using APIs. My technical skills include proficiency in JavaScript, React JS, and knowledge of node packages such as Bootstrap, Axios, Formik and Material UI. I am a quick learner and always eager to expand my skill set. During my internship, I was able to apply my skills and knowledge to real-world projects and was able to make a meaningful contribution to Crosscope's mission of helping treat cancer patients with the help of AI.

Project's

1. **A Portfolio Web App** (*React Js*) showcases my skills, education, work experience & projects. [Hosting](#)
 2. **Real-Time News App** (React.js) fetches real-time news from an API and displays it. [Github](#)
 3. **A Chrome Extension** scrapes *LinkedIn User Profiles* & exports them in JSON format. [Github](#)
 4. **ReactJS - Firebase** ([Hosting](#)) use of **Firestore**(Authentication, cloud Firestore, hosting and cloud storage)
-

Skills

- 1.Tech-Skills:-
- Strong knowledge of React JS and JavaScript
 - Proficient in integrating with back-end systems using APIs
 - Experience with popular node packages such as Bootstrap, Axios,Formik and Material UI
 - Good problem-solving skills and ability to work independently and in a team environment
 - Strong communication skills and passion for technology
2. Non-Tech Skills:.
- Quick learner
 - Strong attention to detail
 - Good interpersonal skills
 - Ability to work under pressure and meet tight deadlines
 - Effective time management and organizational skills
