SUMMARY

I am a recent computer science graduate with experience in front-end web development, specifically with React JS and JavaScript. I am proficient in integrating with back-end systems using APIs and knowledgeable in popular node packages. such as Bootstrap, Axios, Formik, and Material UI. Additionally, I have experience with back-end technologies such as Nest.js, Node.js, Express, and Fastify, and am familiar with databases like MongoDB, MySQL, TimescaleDB, and PostgreSQL. I am also familiar with containerization technology using Docker. With the ability to work independently and in a team environment, I have a proven track record of delivering high-quality and user-friendly applications. As a quick learner with strong communication skills and a passion for technology, I am eager to contribute my skills and continue to grow in the field.

EXPERIENCE

Full-Stack Developer | KSDAC | India | April 2023 -October 2023

• Full Stack Developer with expertise in developing and deploying web applications using various technologies such as Nest.js, React.js, TypeScript, Swagger, Fastify, Express, MongoDB, Docker, and Postman. Proficient in writing clean and maintainable code, testing the backend code with Jest, and using Git for version control and collaboration. Skilled in database integration, user interface design, and problem-solving. Certified in REST APIs and Microservices with Nest.js. Seeking to leverage my passion and knowledge for web development to create engaging and responsive websites and applications.

JavaScript Developer | Renovus Technologies, Prospectss | Mumbai, Maharashtra | September 2022 - December 2022

• I have a strong background as a JavaScript Developer, having worked at Renovus Enterprise from September 2022 to December 2022. During my time there, I was responsible for the full functioning and UI authentication of a chrome extension, showcasing my expertise in JavaScript. I am a quick learner and have a passion for coding, which allows me to excel in my role as a developer. I am committed to delivering high-quality, functional code and am confident in my ability to contribute to any development team.

React Js Developer intern | Crosscope | Hawthorne, NY Pune, India | January 2022 - April 2022

• As a React JS Front End Developer Intern, I gained valuable experience working at Crosscope, a medical healthcare company, from January 2022 to April 2022. I was responsible for the end-to-end functionality of the dashboard, login page, and account section, and integrating it with the backend using APIs. My technical skills include proficiency in JavaScript, React JS, and knowledge of node packages such as Bootstrap, Axios, Formik and Material UI. I am a quick learner and always eager to expand my skill set. During my internship, I was able to apply my skills and knowledge to real-world projects and was able to make a meaningful contribution to Crosscope's mission of helping treat cancer patients with the help of AI.

PROJECTS

Portfolio-Typescript-React2024 | Self Project | https://portfolio-type-script2024.vercel.app/

• I've developed a portfolio website using React.js with Vite and TypeScript, which serves as a comprehensive showcase of my skills, projects, and proficiency in various technologies. The design, enhanced by Tailwind CSS, is both customizable and responsive, ensuring a seamless user experience across all devices. The website features detailed descriptions of my projects and a dedicated section outlining the technologies I'm proficient in. I continuously update the website and am considering the addition of a blog section to share industry insights.

React-Firebase | Self Project | https://react-wecodeforyou.web.app/ | March 2023 - March 2023

• My React.js and Firebase project is designed to securely store and display user data. Using Firebase's authentication, hosting, cloud firestore and cloud storage services, the app allows users to sign up and securely store their personal information. Upon

logging in, users can view their stored data, which is displayed in a user-friendly format. The app is also designed with Bootstrap, making it visually appealing and easy to use. Overall, this project showcases my proficiency in React.js and Firebase, as well as my ability to design and develop secure and efficient web applications.

Portfolio WebApp | Self-Project | https://portfolio-v2-bice.vercel.app/ | January 2023 - February 2023
• My portfolio React.js web app showcases my skills and experience as a developer, with sections dedicated to my education, work experience, and past projects. The app also features a skills page that lists my technical skills, including proficiency in programming languages and experience with Node packages like Bootstrap and Routers.
•
• In addition to displaying my technical skills, the app provides users with easy access to my contact information, including my phone number, email address, LinkedIn profile, GitHub account, and WhatsApp number.
•
• Overall, my portfolio React.js web app is designed to be a comprehensive and visually appealing representation of my work as a developer, highlighting my skills and experience in a way that is easy for users to navigate and understand.

NewsApp | Self-Project | https://github.com/WhySoOpKratos/News-App | January 2023 - January 2023
• My React project is a news app that fetches news from an API and displays the latest news headlines and news articles in a user-friendly and visually appealing way. I have designed the app with two main features: the ability to view all available news and to view news headlines only.
•
• I have implemented the app using React components, with Axios used to fetch data from the API. The app is designed with efficiency and optimal performance in mind, with a responsive design that allows users to access the news on any device.
•
• The first feature of the app allows users to view all available news. The second feature of the app allows users to view news headlines only, allowing for a quick and easy way to stay updated on current events.
•
• Overall, my news app is a useful platform for users to access the latest news and stay informed on a range of topics, with a focus on efficiency and user-friendliness.

EDUCATION
Bachelor of Technology - BTech | Uttaranchal University | 8.07 | Dehradun, Uttarakhand India | 2022

CERTIFICATIONS
Advance Rest API's & Microservices with Nest.Js | KSDAC.LLP | 2023

SKILLS
JavaScript

TypeScript

Tailwind CSS

ReactJs

Next.Js

Nest.Js

Fastify & Express

MongoDb

Docker

Advance Git

Rest API's

Microservices

Testing with jest

node Packages such as Axios, Formik, Bootstrap, Material UI etc.
